

## Do you love your child's school?

Magnet schools throughout Connecticut provide families with high-quality, integrated school options for their child's education. These schools are threatened by years of insufficient funding. Together, we can make sure that magnet schools can continue to provide great teachers and programs.

In partnership with families, magnet school partners, community members, and school districts, we have joined to establish the **Connecticut Coalition for Magnet Schools**. This powerful group will advocate on behalf of all of Connecticut's magnet schools.

## We need your help!

**In order to succeed, we need your support.** We need hundreds of parents and community members to participate, take action, and meet personally with their legislators. To become more involved in the Connecticut Coalition for Magnet Schools by serving as a member of the **Action Team** in your community, please contact [infor@ctmagnetschools.org](mailto:infor@ctmagnetschools.org).
